

Certificate

The **HÜRNER** buttwelding units

CNC ECO, CNC Eco+, WeldControl, WeldControl EF, Manual from dimensions Ø 160 mm up to 1600 mm

were used to join PE-HD pipeline components under

- ISO 12176-1:2012-10 an DVS 2207-1

using the buttwelding technique and were tested and assessed according to

- DVS 2202-1 and DVS 2212-1.

We, the undersigned

Handwerkskammer Aachen

Tempelhoferstr. 15-17

52068 Aachen

declare, that upon test, the buttwelded joints were found to be in conformity with the aforementioned requirements.

This declaration is applicable exclusively to the tested welding units in the product version, that was put to the test.
